### Our programmes in English

**A guide to volunteer programmes lead by Volunteer Centre in Lublin**

What are you reading?

An express description of the initiatives undertaken by the Volunteer Centre in Lublin.

Who are we?

The Volunteer Centre Association was established in 1999. For more than 14 years the organization has connected those who needed help and those who could and wanted to provide it to others, in Lublin region as well as far behind the borders of our region and country. Each of the initiatives described below was started in the face of a concrete human need and a situation posing a threat to human dignity, when sensitive people wanted to help selflessly.

What inspires us?

In short: the idea of the Civilisation of Love, promoted by John Paul II. In his message on the occasion of the International Year of Volunteer Work he wrote ' It is not enough to help whoever is in material difficulty; it is necessary at the same time to respond to his thirst for values and personal, spiritual solutions. The kind of help we offer is important, but more important
